

ATH-W1000Z

closed-back dynamic headphones

Take your listening to Hi-Res Audio status with the **ATH-W1000Z** audiophile headphones, the 11th generation of our prized W Series.

Featuring uniquely grained wood housings made of pure teak – these headphones deliver warm, high-fidelity audio, aided by the wood’s ability to reflect thick, natural bass sound.

The bass extension is further improved by our exclusive D.A.D.S. (Double Air Damping System) housing structure which helps to increase the damping effect.

Both of the headphones’ 53 mm drivers are engineered with a unified yoke, comprised of two magnetic circuit parts, that boosts magnetic flux density for increased efficiency and better sound quality. The drivers also feature high-quality, bobbin-wound OFC-7N voice coils that ensure intricate sound reproduction.

Lightweight and highly rigid magnesium frames and baffles, affixed to the wood housings via a special “floating mount” system, help to reduce unwanted resonance. Resonance is further reduced by our 3D wing support mechanism, which also provides a great, comfortable fit that can be enjoyed for hours on end.

The **ATH-W1000Z** comes equipped with a 3.0 m dual-sided, four-core parallel cable with a thermoplastic elastomer sheath to prevent tangling. The cable terminates in a 6.3 mm (1/4”) gold-plated plug with a wooden sleeve.

- 11th generation of Audio-Technica’s prized W Series
- Pure teak wood housing produces warm, high-fidelity sound
- 3D wing support for a great fit and long-wearing comfort
- Large 53 mm aperture drivers feature specially built two-part magnetic circuit that produces high-speed magnetic streams for improved sound quality
- D.A.D.S. (Double Air Damping System) structure provides deep bass reproduction
- Floating mount system brings out the natural sound properties of the wood housing

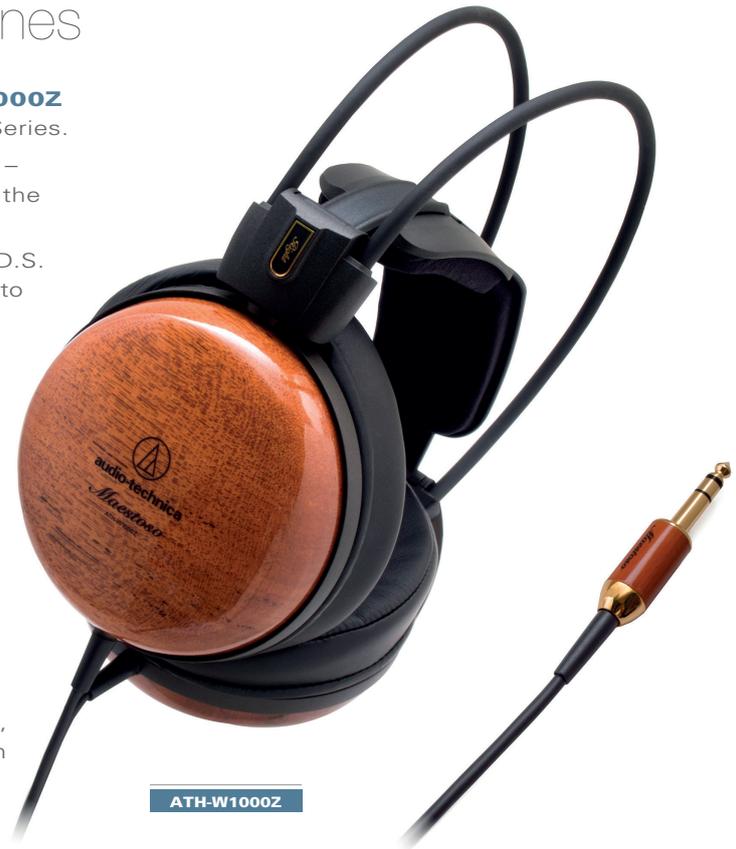

Price: 790.00€ (EURO inc 20% VAT);
£599.00 (GBP inc 20% VAT)

EAN Code: 4961310129330

Specifications*:

Driver:	Closed-back Dynamic 53 mm
Housing:	Pure Teak wood
Sensitivity:	101 dB/mW
Frequency Response:	5 – 42,000 Hz
Maximum Input Power:	2,000 mW
Impedance:	43 ohms
Voice Coil:	OFC-6N
Weight:	320 g
Cable:	3.0 m
Connector:	6.3 mm gold-plated plug with wooden sleeve casing

* Specifications are subject to change without notice.
