

POSITIONING

Samson's AirLine 88 Guitar system offers true wireless freedom without the hassle of a belt-pack or cable. Featuring a plug-in transmitter with a dual-position connector that is designed to fit a variety of guitar jacks, this frequency-agile UHF wireless system provides high definition sound, premium reliability and a 300' operating range for guitars, basses and other stringed instruments.

FEATURES

The Wireless Future

AirLine 88 Guitar continues Samson's longstanding commitment to wireless innovation. Designed to be an extension of your instrument rather than a separate component, the AG8 Guitar Transmitter lets you rule the stage with confidence. It provides IR sync to wirelessly match the receiver and transmitter frequency, an audio Mute switch, battery life LED indicator and up to 12 hours of operation on a single AA battery.

A Multi-Instrumentalist

Can you really use only one guitar? Samson doesn't think you should have to make that choice. That's why the AG8 plug-in transmitter was designed with a custom, dual-position connector that can fit both Fender® (Stratocaster) and Gibson®-style guitar output jacks. AirLine 88 Guitar also provides exceptional low frequency clarity ideal for bass guitars. It's even a great wireless solution for acoustic-electric guitars, electric violins and accordions.

Tour Support

Offering frequency-agile operation, the system's rack mountable CR88 Wireless Receiver provides 16 selectable channels for reliable performance no matter where you are. The receiver's True Diversity design minimizes dropouts, while tone key technology prevents unwanted noise when your transmitter is off or out of range.

APPLICATIONS

- Electric guitars
- Acoustic-electric guitars
- Bass guitars
- Electric violins
- Accordions

SPECIFICATIONS

AirLine 88 Guitar Wireless System

Working Range..... 300' (100m) line-of-sight
 Dynamic Range..... >100dB A-weighted
 Signal To Noise >90dB

CR88 Wireless Receiver

Audio Output Level Balanced +9dBu, unbalanced +14dBu
 Audio Output Impedance Balanced 240Ω, unbalanced 810Ω

AG8 Guitar Transmitter

Input Impedance..... 1MΩ
 RF Power 10 mW EIRP
 Battery Life..... 12 hours from AA battery
 Accessories..... Rackmount kit, AC adapter
 Gift Box Dimensions 3.75" x 12" x 9"
 (227mm x 304mm x 95mm)
 Gift Box Weight..... 2.45lb
 Master Carton Quantity 8
 UPC (US only)..... 809164218081 (D Band)
 809164218104 (K Band)
 SKU (US only)..... SWC88AG8-D
 SWC88AG8-K
