» Mic Mute Switch		•
» 3.5mm Stereo Line Input	•	•
» 3.5mm Stereo Line Output	•	•
» ¼" Stereo Headphone Jack	•	•
» >10 Hours on one 9V Alkaline Battery	•	
» >20 Hours on one 9V Alkaline Battery		•

BluePack and RemoteMix One are shown for comparison

BP = BluePack

RM1 = RemoteMix One

### A Little One On One.

RemoteMix One™ performs live man-on-the-street interviews through your cell phone and can provide two-way IFB connections through a cell phone or notebook for truly flexible remote monitoring.

### Wireless Phones and Notebooks:

Connect to cell phones and notebooks through the wired headset jack. A 3.5 mm stereo line input jack allows recordings to be mixed into the broadcast. The 3.5 mm stereo line output jack provides your full bandwidth microphone signal on the left channel and the return audio on the right channel.

Use as a headset replacement for normal voice calls, or transmit full bandwidth audio using third party CODEC apps. Interchangeable interface cables connect to most phones and notebooks.

**HD Voice.** RemoteMix One features HD Voice technology, allowing 7 kHz Wide Band Speech phone calls when used with compatible phones on compatible networks, or when using wide band voice codec apps.

Read our HD Voice primer for more details.
