

CR 2628

28 UNITS RACK CABINET

DESCRIPTION

CR 2600 series rack cabinets are designed to hold all RCF 19" rack standard components. The rack enclosures are bake-painted at high temperature using epoxy powders to make the structure unalterable over time and resistant to scratching, abrasion, and atmospheric agents. The CR 2600 series cabinets are composed of a basic structure that is assembled simply and quickly by fitting and securing four steel uprights to the upper and lower panels. Additional front doors with glass can complete the cabinet.
